

Machinery and Systems  
**for Paper Industry**

**Rectifier rolls**

# Rectifier rolls

We have been manufacturer of rectifier rolls for many years and are supplying the most important papermachine builders in Italy and abroad.

Our high qualification and specialization, and the very large experience in this field with the most modern available equipment, allow us to realize rectifier rolls which can meet any particular requirement of the customers.

Finishing is particularly accurated, and the perfectly smooth and specular surfaces can be delivered with mechanically or electrolytically polishing treatment.
