Medium consistency screen PSP

Medium consistency screen PSP

The **ST Macchine** medium density screens are engineered to remove from waste paper or virgin fiber small contaminants as stickies, small plastic pieces, Styrofoam etc...

Accordingly to the applications requirements they can be supplied with holes or slotted baskets.

Working consistency is from 2 to 4%.

Various models for capacity from 35 to 300 T/D.

Smart solutions have been adopted in terms of maintenance.

SCREEN MC HOLES PSP

Model	PSP03	PSP05	PSP10	PSP20
Basket area [m ²]	0,3	0,5	1	2
Max production [T/D]	35	70	150	300
Work consistency [%]	2,5 ÷ 4%			

SCREEN MC SLOT PSP

Model	PSP03	PSP05	PSP10	PSP20
Basket area [m ²]	0,3	0,5	1	2
Max production [T/D]	35	70	150	300
Work consistency [%]	2,5 ÷ 3,5%
